

## Rite-Temp®

Pressure Balancing Valve with Diverter

K-11748-K-NA

### Description

This Rite-Temp pressure-balancing valve works behind the scenes to prevent scalding and thermal shock for optimal comfort. Additionally, the unit features a diaphragm design that virtually eliminates freeze-ups from contamination and water debris. When paired with compatible trim, this valve delivers a high-temperature limit stop and an optimal comfort zone, so you can set a maximum high and then find and maintain your desired water temperature.

<b>Model</b>	<b>K-11748-K-NA</b>
<b>Connection Type</b>	1/2" NPT connections.
<b>Installation type</b>	Wall Mount
<b>Dimensions</b>	102 x 102 mm
<b>Features</b>	<ul style="list-style-type: none"> <li>- Rite-Temp® pressure-balancing diaphragm design.</li> <li>- Pressure-balancing mechanism of one-piece diaphragm cartridge design for ease of maintenance.</li> <li>- Mixing valve cycles from "cold" to "hot".</li> <li>- Integral diverter mechanism.</li> <li>- High-temperature limit setting for added safety.</li> <li>- Less screwdriver stops.</li> <li>- Designed for showerhead and hand shower applications.</li> </ul>
