

Rite-Temp®

Pressure Balancing Valve 1/2"

K-8304-K-NA

Description

This Rite-Temp pressure-balancing valve works behind the scenes to prevent scalding and thermal shock for optimal comfort. Additionally, the unit features a diaphragm design that virtually eliminates freeze-ups from contamination and water debris. When paired with compatible trim, this valve delivers a high-temperature limit stop and an optimal comfort zone, so you can set a maximum high and then find and maintain your desired water temperature.

Model	K-8304-K-NA
Connection Type	1/2" Universal NPT & direct sweat inlets & outlets.
Installation type	Wall Mount
Dimensions	W 117, H 117 mm
Features	<ul style="list-style-type: none"> - Includes valve body, pressure balance cartridge, rough-in guide, and mudguard - 19 LPM at 3 bar - Single handle controls both on/off activation and temperature settings - Single lever design cycles from off through cold to hot - Provides temperature regulation and automatic anti-scald protection - Adjustable high-temperature limit stop to control maximum water temperature
