

1/2" Ceramic High-Flow Valve System with Diverter
K-438-K-NA

Description

This 1/2-inch ceramic valve system with diverter transfers water between two showering components, eliminating the need for a separate diverter valve. When paired with compatible trim, this valve delivers a high-flow rate to quickly fill your bath

Model	K-438-K-NA
Installation	Deck Mount or Rim Mount
Dimensions	W 203 mm
Features	- Quarter-turn ceramic disc valves exceed industry longevity standards, ensuring durable performance for life.
